

CPT6123 Research Methods in Computer Science

AI Disclosure & Academic Integrity Form

Group Number: GROUP 10

Topic: Adaptive Gamification with Real-Time Harm Mitigation for Personalised Learning

1. Tools Leveraged

Check all that apply:

- ☒ ChatGPT (Version: _____)
- ☒ Gemini
- ☒ Claude
- ☐ Perplexity
- ☐ Grammarly / Quillbolt
- ☐ Other: _____

2. Nature of Assistance

In the table below, describe how the AI was used for specific parts of the assignment.

Task	AI Used? (Y/N)	Description of AI's Contribution
1. Abstract	Y	Proofread and touch up sentences.
2. Intro & Conclusion	Y	Provide intro and conclude base on researched proposal context.
3. Problem Statement	Y	Not a lot, basically are gaps from the Assignment 1 literature review.
4. Research Questions & Objectives	Y	Propose research topic and provide keyword to find some suitable papers, absolutely not finding paper for us.
5. Literature Review	Y	Brief recap generated based on our Assignment 1.
6. Methodology	Y	Outline step-by-step breakdown of the proposed algorithm/model/framework.
7. Expected Outcomes	Y	Proofread and touch up sentences.
8. Research Activities & Milestones	Y	Provide milestone roadmap checkpoint table.
Formatting Citations	Y	Review and fix improper citation format.

3. Verification & Accuracy Check

AI tools are known to "hallucinate" or provide outdated information. **How did your group verify the information provided by the AI?**

Student Response: *[Write 2-3 sentences here]*

AI played important roles in distributing task, providing direction and keyword to find papers that are in-scope of our topic and also a perfect proofreader for our paper. We do not ask AI to find papers for us, all the generated content was subjected to human review.

4. Student Declaration

We, the undersigned, certify that:

1. The core analysis, selection of papers, and comparison logic are our own original work.
2. No part of the final report was "copy-pasted" directly from an AI output without substantial editing and verification.
3. We take full responsibility for any factual errors or fabricated citations present in our submission.
